5.		<p>A college education is much more than classes. It is a time for growth, a time when students broaden their horizons beyond the walls of their upbringing to experience all the world has to offer. Never before have college students had the opportunity that are now available in Nasik in A.I.C.E.S.R to study and get this unique experience of achieving holistic development.</p> <p><i>Prerna Ratwani, Student (2017-2019 batch)</i></p>
6.	 	<p>Our college A.I.C.E.S.R. is one of the best options to choose for becoming teachers. If one wishes to pursue B.Ed. It gives us quality education as well as better opportunity for grooming as an individual. The list of the activity, seminars, workshop etc are arranged in such a way that it provides an additional quality in an individual, so according to me Ashoka is far more better institution for perusing education.</p> <p><i>Taniya Meerani & Ritika Saini, Students (2017-2019 batch)</i></p>
